HOBBIES AND INTERESTS

Video games

I am very passionate about everything the video game industry has to offer. Video games are my biggest hobby, and I like to stay up to date about news, rumors, etc. Although my favorite genres are horror/thriller, I am a very eclectic gamer, and I like to play every kind of video game. I also enjoy writing about them, as you can see by clicking on the links below.

Web development

I like to build small websites using HTML, CSS, and Javascript in my spare time. You can see my work by clicking on my GitHub link profile.
